

School Spirit Survey

Your opinion matters! Tell us what you think about school spirit events.

* Required

What grade are you in at school? *

Ask a question to learn about the demographics of the sample group. You can study the data from each subgroup using a pivot table.

How do you find out about school spirit events? *

- posters in hallways
- school announcements
- friends
- Other:

Allow a person to type in an answer if none of the choices apply. This will prevent a respondent from picking an answer that is untrue.

Pick two things you like the most about school spirit activities. *

- win a prize
- dress up
- competition
- group activity

Use a checklist to gather information. Restrict the number of choices selected by setting the data validation options.

What idea for a school spirit day do you like the most? *

- school cheer competition
- teacher versus students basketball g
- talent show

Use a multiple choice question to discover what people like the most. Set the question to "required" to prevent a respondent from skipping it.

Rate your school spirit. *

1 2 3 4 5
low high

Use a rating scale to learn about opinions. The scale can be low to high, disagree to agree, poor to excellent, or never to always.

Tell us what you think! *

	dislike it	like it	love it
plaid day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
birthday board	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
wacky hair day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

A grid allows a respondent to state many opinions using a standard rating scale. The columns can be yes/no, dislike/like/love, or disagree/undecided/agree.

Share your ideas! How can we boost school spirit?

Ask a short answer question. This is a great way to allow respondents to explain an answer or suggest a new idea.
