

How We'll Start Strong This Week

What the first 7 days look like

- ☐ Day 1: A short “About Me” slideshow and pair-share.
- ☐ Day 2: Quick digital citizenship-crediting images, safe passwords, and being open about any AI use.
- ☐ Day 3: A few tech basics (rename a file, insert a chart, add alt text, export to PDF).
- ☐ Day 4: A tiny data project: collect → graph → tell a one-slide story.
- ☐ Day 5: 60-second share-outs + a “Wins” folder to start a simple portfolio.

How you can support at home (optional, easy)

- ☐ Ask to see the “About Me” slides or this week’s mini-project.
 - ☐ Encourage a one-minute explanation: What did you make? What choices did you change after feedback?
 - ☐ Help keep files named clearly (it matters more than it sounds!).
-
